

Appendix C: State codes

Latin American Migration Project (LAMP) Dominican Republic

The following lists provide codes for all *state* (province) variables.

The lists are divided into four sections: generic codes; Dominican states; U.S. states; and other countries.

IMPORTANT!!

To protect our subjects' confidentiality, we are not revealing certain state and place codes —see "Generic" codes below. For each given community, all state variables corresponding to the state (province) where the community is located are coded as zeroes, and so are the corresponding place variables.

Generic

For all state variables, the following generic codes apply:

8888 Not applicable
9999 Unknown/missing state in Nicaragua.
