

Appendix A: Sampling information Guatemala

Table A1 - Sample Statistics

Guatemala, LAMP-GUA3

| Indicator | Community Number | | | Total |
|--|------------------|------------|------------|--------------|
| | 1 | 2 | 3 | |
| Year of Survey | 2004 | 2004 | 2004 | |
| Total households in the survey area (count) | 1100 | 1000 | 410 | 2510 |
| Estimate of eligible households ⁽¹⁾ | 889 | 711 | 356 | 1955 |
| Visited households | 302 | 256 | 242 | 800 |
| Eligible | 244 | 182 | 210 | 636 |
| Interviewed households | 194 | 144 | 175 | 513 |
| Dismissed ⁽²⁾ | 40 | 30 | 30 | 100 |
| Refusals | 10 | 8 | 5 | 23 |
| Ineligible | 58 | 74 | 32 | 164 |
| Uninhabited ⁽³⁾ | 50 | 70 | 30 | 150 |
| Foreign-born head | 0 | 2 | 0 | 2 |
| Business only (non-residential) | 6 | 2 | 0 | 8 |
| Does not exist ⁽⁴⁾ | 2 | 0 | 2 | 4 |
| In the US ⁽⁵⁾ | 0 | 0 | 0 | 0 |
| Other ineligible ⁽⁶⁾ | 0 | 0 | 0 | 0 |
| Selected ratios (in %) | 1 | 2 | 3 | Value |
| total visited / total counted | 27.5% | 25.6% | 59.0% | 31.9% |
| interviewed / total visited | 64.2% | 56.3% | 72.3% | 64.1% |
| ineligible visited / total visited | 19.2% | 28.9% | 13.2% | 20.5% |
| eligible visited / total visited | 80.8% | 71.1% | 86.8% | 79.5% |
| uninhabited / total visited | 16.6% | 27.3% | 12.4% | 18.8% |
| foreign-born head / total visited | 0.0% | 0.8% | 0.0% | 0.3% |
| business only / total visited | 2.0% | 0.8% | 0.0% | 1.0% |
| does not exist / total visited | 0.7% | 0.0% | 0.8% | 0.5% |
| other ineligible / total visited | 0.0% | 0.0% | 0.0% | 0.0% |
| refusals / total visited | 3.3% | 3.1% | 2.1% | 2.9% |
| dismissed / eligible visited | 16.4% | 16.5% | 14.3% | 15.7% |
| refusals / eligible visited | 4.1% | 4.4% | 2.4% | 3.6% |
| refusals / (interviewed + refusals) | 4.9% | 5.3% | 2.8% | 4.3% |

Sampling Fraction ⁽⁷⁾

0.2183 0.2025 0.4919

Weights

Domestic sample weights ⁽⁸⁾

4.58 4.93 2.033

(1) Household count * (eligible visited / total visited)

(2) Confirmed residential dwellings whose residents could never be found or who were unable to respond to the survey in a coherent manner.

(3) Empty house or under construction and uninhabited

(4) Incorrectly judged to be an independent household

(5) As reported by neighbors, the household residents were in the US at the time of survey. No one was living in the house during their absence. Had someone living in the house, that person would have been interviewed.

(6) Institutions such as a school, a nursing home, a government office, etc.

(7) Interviewed households / estimate of eligible households

(8) 1/ Sampling fraction
