

Appendix C: State codes

The following lists provide states codes for all state variables. Users familiar with the Mexican Migration Project (MMP) data set will notice that the same state codes used by the MMP for the U.S. apply to this data set as well. In this data set, Haiti is considered separately from the United States and their state codes correspond to *departaments*. The lists are divided into four sections: Generic codes; Haitian states; U.S. states; and other countries.

Generic

For all state variables, there exists a set of commonly used codes:

- 8888 Not applicable
- 9999 Unknown/missing state in Haiti.
