

Appendix C: State codes

Latin American Migration Project (LAMP)

Nicaragua

The following lists provide states codes for all state variables. Users familiar with the Mexican Migration Project (MMP) data set will notice that the same state codes used by the MMP for the U.S. apply to this data set as well.

In this data set, Nicaragua and Costa Rica are considered separately from the United States and their state codes correspond to *departamentos* and *provincias*, respectively.

The lists are divided into five sections: Generic codes; Nicaraguan states; Costa Rican states; U.S. states; and other countries.
