

Uruguay HOUSE File

Description

This cross-sectional file contains information at the household-level for all households surveyed.

HOUSE Variables

Uruguay – House file contains 803 observations and 465 variables. HOUSE contains information on household composition, marital information, social networks, and physical capital.

- Characteristics of HEAD and SPOUSE such as basic demographic and health variables collected on tables A and Q respectively.
- Marital history (up to 6 unions) of the household head collected on table B
- By selecting household members from table A, we construct variables with characteristics of sons and daughters regarding general labor force information, domestic migration and international migration
- Migratory experience of the family-of-origin of the household head collected on tables G and H
- Business acquisition and characteristics from table D
- Properties from table H

Do not forget to download the Ethnosurvey from our page in order to obtain specific tables and questions.
