

## **URUGUAY**

### **RDS file**

#### **Description**

RDS is a file for each household head in Table A.

#### **Variables in RDS**

Uruguay - RDS contains 803 observations and 7 variables. RDS is a file – at a household level - that provides information required for the estimation of weights in a framework of respondent driven sampling (RDS).

The variables found in this file are

- Informant coupon number, informant referral coupon number (up to 3) and size of each informant's migrant contact network (Table A).

Table L is available as an Appendix to the specific methodological documentation of this ethno-survey.

## **PERS file: List of variables and specifications**

---

<b>Variable</b>	<b>Format</b>	<b>Name</b>
-----------------	---------------	-------------

---

### ***Identifier Information***

COMMUN	4.0	Community number
HHNUM	4.0	Household number (within community)

### ***Referral and network size information***

RDS	5.0	Informant Coupon Number
REF1	5.0	Informant's Ref. 1 coupon number
REF2	5.0	Informant's Ref. 2 coupon number
REF3	5.0	Informant's Ref. 3 coupon number
NETSIZE	3.0	Number of people of the same origin that you could contact in the next 24hs

**PERS file: List of variables and specifications**

<b>Variable</b>	<b>Name</b>	<b>Value</b>	<b>Definition</b>
<b>Identifier information</b>			
<b>COMMUN</b>	<b>Community number</b>		
		1	Cuba
		2	Dominican Republic
		3	Peru
		4	Venezuela
<b>HHNUM</b>	<b>Household number (within community)</b>		
		nnnn	Household number
<b>Referral and network size information</b>			
<b>RDS</b>	<b>Informant Coupon Number</b>		
		nnnnn	Coupon number
<b>REF1</b>	Referral coupon 1		
		nnnnn	Coupon number
<b>REF2</b>	Referral coupon 3		
		nnnnn	Coupon number
<b>REF3</b>	Referral coupon 3		
		nnnnn	Coupon number
<b>NETSIZE</b>	Number of people you can contact in 24hs		
		nnn	Number of contacts (network size)

TABLE L. Informant's network size estimate			
Informant's RDS number: <input type="text"/>			
In total, how many migrants from your own country, who live in Montevideo - in a different household - do you know personally? (household members must be excluded; number may include friends, spouse, siblings, cousins, neighbors, and acquaintances)			<input type="text"/>
From those counted above, with how many have you talked in the last six months?			<input type="text"/>
From those counted above, with how many could you call in the next 24 hours?			<input type="text"/>
Among those counted above, how many would be willing to participate in this study? (if invited by yourself)			<input type="text"/>
Could you give us three references to participate?			
	Name	Phone	RDS Number
Referred 1:	<input type="text"/>	<input type="text"/>	<input type="text"/>
Referred 2:	<input type="text"/>	<input type="text"/>	<input type="text"/>
Referred 3:	<input type="text"/>	<input type="text"/>	<input type="text"/>
Relationship to the person who referred you to participate in this study? (choose the closest description)			
1 Spouse/partner			
2 Family (specify): <input type="text"/>			
3 Friend (specify): <input type="text"/>			
4 School classmate			
5 Friend from work			
6 Acquaintance from neighborhood			
7 Acquaintance from refuge			
8 Acquaintance from street			
9 Unknown person			
10 Other (specify): <input type="text"/>
